

NCR FastLane™ Mini

Smaller footprint
Greater flexibility

- Smallest self-checkout footprint
- Intuitive, multi-media interface
- Broad range of POS applications
- Exceptional return on investment

When Space is at a Premium

NCR FastLane Mini is ideal for space-constrained locations, such as convenience stores, drug stores, boutiques and department stores. Allowing consumers to scan, bag and pay for their items efficiently, the Mini is designed to accommodate developing retailer and customer requirements across industries and geographies. Incorporating feedback from consumers, cashiers and retailers, the Mini is designed to meet the demand for a smaller footprint configuration while streamlining functionality.

Designed for Maximum Flexibility

The Mini gives shoppers the option to pay using credit cards, debit cards, or other electronic payment methods. To make self-checkout quick and simple, the NCR FastLane Mini features NCR's intuitive touchscreen user interface, with multimedia graphics and easy-to-follow voice and visual prompts, and optional signature capture pad for completing credit-card transactions. It also can be equipped to accept coupons, deactivate electronic article surveillance tags and provide ATM-like functionality by dispensing cash back on debit card transactions.

The NCR FastLane solution has been integrated with a broad range of POS applications. NCR's broad network of partners and expansive integration efforts results in a solution that can be deployed tightly and seamlessly with a retailer's POS.

Delivering Superior ROI

NCR FastLane Mini is designed for reliability, delivering superior total cost of ownership and an attractive return on investment. Built to withstand the rigors of a harsh store environment, the entire family of NCR FastLane self-checkout solutions is easy to service, with all components readily accessible from the front of the system. This means that it can be installed back-to-back or against a wall. In addition, the NCR FastLane Mini incorporates the same security features that are standard on all NCR self-checkout systems.

NCR FastLane™ Mini

NCR Self-checkout Specifications
